INDUSTRY LEADERS

Global Rescue is the only organization with operating capabilities in remote and challenging locations worldwide for travelers and adventurers alike – from the back roads of Mexico and the mountains of Nepal to the wilds of Mongolia, tropical beaches of the Caribbean to the jungles of Papua New Guinea, the highlands of Guatemala, and the remote stretches of Canada and the U.S. With a network of thousands of operational assets, you can have peace of mind wherever your adventure takes you.

Global Rescue was there every step of the way, providing professional medical recommendations, emergency message relay and, most importantly, peace of mind. They were a safety net for me.

FREQUENTLY ASKED QUESTIONS

Q. How is a Global Rescue membership different from travel insurance?

A. Travel insurance is designed to protect your wallet against trip interruption, lost or damaged luggage and medical emergencies. A Global Rescue membership protects you and your wallet in the event of a travel emergency requiring field rescue and medical evacuation.

Q. Can I purchase travel insurance through Global Rescue?

A. Yes. Global Rescue works with leading insurance providers to connect you to a travel insurance policy that includes Cancel for Any Reason benefits (up to \$100,000). When combined with our travel membership, you can be confident knowing you're traveling with the ultimate safety net.

Q. What is field rescue?

A. When you are traveling over 100+ miles from home and are outside of regions with organized emergency services (ie: 911 in US, 999 in EU, and 211 in UK), Global Rescue provides emergency field rescue services from the point of illness or injury to the nearest medical facility for treatment and stabilization.

Q: If I need to be rescued, should I arrange my own evacuation?

A. No. For Global Rescue membership services to apply, all emergency rescue or transportation services must be provided and managed directly by Global Rescue. Self-arranged transport – including those coordinated by third parties – are not eligible for coverage or reimbursement.

Q. Will medical evacuation get me home if I'm hurt or injured?

A. Global Rescue membership services include medical transport to your home hospital of choice if you're hospitalized as an inpatient 100+ miles from home and require ongoing or advanced hospital care.

Q. Is this only for emergencies?

A. No. While Global Rescue provides a wide variety of emergency services, it also provides services for non-emergency situations such as 24/7/365 medical advisory services, lost or stolen passport assistance, real-time event alerts and destination reports for over 200 countries.
