Eleven Angling

Our mission is to custom-make powerful fishing experiences that will take you from fabled remote flats in the Bahamas, to glacier-carved river valleys in Iceland and Chile, to pristine lakes and creeks in the U.S. Rockies. Eleven experiences are a different kind of escape. We prefer to venture out on our own, away from traditional destinations, in search of new waters, new challenges. Our lodges, motherships, chalets and beach houses are miles from the main road or well-traveled waterways – in a historic farming area, on a glistening freestone river in Patagonia, along the wilderness coastline of Andros, and other unique locations that beckon inquisitive anglers.

In each destination, world-class food and lodging are combined with guided fishing from rivers to reefs, and a variety of outdoor activities from the mountains to the sea. Guests of all ages and skill levels are encouraged to join in the adventures, and to improve their skills with instruction from our expert guides. Local cultures present the opportunity to participate in a different way of life, to see and enjoy places known only to native insiders.

No matter where in the world they may be, every facility has five-star accommodations, award-winning chefs, extensive wine selections, saunas, steam rooms, spas, and friendly, skilled guides who strive to add new dimensions to the angling lifestyle, and to share with you that wonderful feeling of comradery and fresh adventure.

Eleven Experience is headquartered in Crested Butte, Colorado. Eleven represents a new standard in experiential travel. We quench a thirst for unprecedented adventures, authentic connections with down-to-earth guides and deeply personalized holidays for the Adventure Capitalist.

WHY FISH WITH ELEVEN?

OFF THE BEATEN PATH

At the root of our identity is the belief that you shouldn't have to sacrifice the comforts of home in order to experience some of the world's most beautiful landscapes and incredible angling adventures. Our team has scoured the globe for destinations that touch new frontiers, that are sometimes difficult to reach, and yet on arrival you can't imagine not being there. Although our properties are far from the mainstream, they are custom designed to ensure you have access to all of the amenities you should - steam showers, saunas, pools, unique hang spaces, comfortable guest rooms and more.

CUSTOM TAILORED + ALL INCLUSIVE

We believe your trip should be about you. That means that no trip is ever the same. From the day we first talk with you, our travel professionals take your input and begin planning your dream itinerary. Organizing travel logistics, taking note of preferences, adding non-angling activities, and of course, talking about the fishing, is all part of the deal. We want you to experience the most out of your trip without feeling nickel-and-dimed. As a result, most of our stays are largely all-inclusive - meaning that your professional guides, adventure activities, most meals, house alcohol and local transportation are included.

ELEVEN GUIDE TEAM

At the core of the experience is the Guide Team. Our international group of highly-trained passionate fly fishing and angling specialists makes the experience. They look forward to meeting you, learning your goals, and helping you improve. Their enthusiasm in sharing their native resources and local culture is infectious. It's what sets Eleven Experience apart. Our guides live and breathe fishing. They thrive on getting to know you and seeing your excitement while on the hunt for your favorite fish. If really getting after it on some of the best water in the world sounds exciting, our cast of guides will safely lead you to unforgettable experiences.
BEST DAY EVER POLICY

This is important. Unlike other lodges or guide operations, we don’t acknowledge “down days” or “weather days”. There are no rain checks. We are always armed and amped to improvise and be creative. If we can’t fish the flats, we’ll fish the protected creeks and enjoy a gourmet lunch. If a river turns off-color, we’ll take you one that’s clear. Just can’t make another cast; there’s snorkeling or paddle boarding, or you can just kick-back and enjoy the view. You came to have a once-in-a-lifetime experience, and this is what you’ll get.

ADVENTURES FOR ALL

There is not a “right” or a “wrong” way to experience an Eleven Fishing Destination. If you’re a die-hard angler who wants to fish dawn to dusk, we’ve got you covered. If you’re looking to fish a half day, or work on your casting skills with your guide, all good. Groups of guys, couples, women only, families with multiple generations? You’re in the right place. Think you want to try bonefishing or trout fishing for the first time? Our guides can’t wait to teach you how. We’re here to design and deliver a trip that exceeds your expectations.

A REAL CONNECTION

At the end of the day, we strive to create memories that you, your family and friends can share for a lifetime. We believe that connections and relationships that our guests foster amongst themselves, with our guides and crew, and with the natural environments they share, are the most valuable intangibles in the world. Let’s get started.
I’m Tom McLaughlin. As captain of the “Eleven Mothership,” your Eleven Experience floating base camp, I’ll be standing by to welcome you aboard as we set off to explore the legendary sport fishing grounds that have drawn generations of anglers to Florida and the rich waters of the Bahamas and beyond.

A Florida resident since 1986, I’m passionate about fishing. It’s a passion nurtured by years of experience, a bounty of local knowledge and a lifetime spent on the water. It’s my goal to make your Eleven Angling Experience an adventure you’ll always remember.

My dedication and devotion to the sport are, perhaps, best illustrated by my ongoing fisheries conservation efforts along with my drive to push the boundaries, to venture above and beyond. To me, fishing has always been far more than dropping a line and catching a fish. I’ve spent my years at the helm expanding the limits of equipment and technology - as well as my own knowledge - to seek and find that elusive and raw connection to the sea and its life. It is, I believe, an essential element of the sport. And it’s one your crew aboard the Eleven Mothership is eager to share.

I firmly believe that through example and education we can help preserve and protect nature’s unique and special places. For me, the move to the Eleven Mothership was a natural evolution. It’s a unique vessel, one that has furthered my commitment to conservation and sportsmanship. The Mothership has provided us with the means to create a unique connection to nature through the rich opportunities the Eleven Experience offers. There’s nothing afloat that rivals it. And no, I can’t imagine being anywhere else.

ABOUT THE EXPERIENCE

If you want it all—a gorgeous remote setting, a spectacular variety of rivers, lakes, ponds, streams and small creeks suitable to anglers of all ability levels, a range of adventure activities, and casually elegant accommodations with fine attention to service and detail—Taylor River Lodge is the place. And with a mile of semi-private water right out front, you can wet a line whenever the mood strikes you, unplug from the daily routine and focus on the moment.

Just learning to fly fish? Our professional guides love to teach beginners on the lodge’s stocked trout pond, and on nearby rivers and lakes. Like to float fish? Avid anglers can enjoy 26 miles of the Gunnison River in pursuit of big browns, rainbows, and kokanee salmon. Prefer to hike and wade? A myriad of mountain streams are nearby, where accurate casts with dries or nymphs can produce astounding wild trout. And how about early season pike fishing on the flats of Taylor Reservoir, or working the feeder stream inlets at Blue Mesa for rainbows, browns and cutthroat.

There’s no compromising on the quality of fishing options, and no compromising on the lodging, food and drink, or the optional outdoor activities either. The Taylor River property sprawls over 8 acres with riverfront cabins for couples and larger family cabins nestled under a forest of pines. Interspersed, and connected with lighted pathways, you’ll find reception and fly shop, spa building with pool, Jacuzzi, sauna and massage treatment rooms, and a spacious lodge with dining room, living room, bar and deck overlooking the river.

If you’re an avid angler who likes to travel with non-angling friends or family members, no problem. There’s something for everyone at Taylor River Lodge.

ABOUT THE EXPERIENCE

If you’re an adventurous angler searching for a unique fishing experience that combines a variety of majestic rivers and lakes, idyllic wading, seclusion and world-renowned service, Deplar Farm, Iceland is a destination that shouldn’t be missed. Strategically located between Europe and the States, Iceland and Deplar offer easy access to otherworldly landscapes without hours of traveling. East coast U.S. and London-based guests can be fishing on the same day of travel. And our area of northern Iceland offers more pristine water than could realistically be fished in a lifetime, with fly fishing opportunities for coveted Atlantic salmon, sea-run browns, wild brown trout, and aggressive arctic char. The fishing program, led by our experienced guides, employs the classic European style “beat” system, limiting each watershed to very few anglers over the course of a season—promoting large healthy fish and a private fishing ambiance.

Deplar Farm is a one-stop-shop for adventure, solitude, mystery, and high-end amenities. The Fljót Valley sees some of the highest average snowfall on the planet. As a result, the eastern route to Deplar is closed all winter, making its remote locale all the more raw and wild.

<td>BOOKING TIPS</td>
<td>The key to planning your trip is to book as early as possible, and a year in advance is not too early if you want the choice of best options and dates. While booking the best salmon fishing coincides with specific rivers and beats, the wild trout and char fishing is more flexible. And with so many river and lakes to fish, Iceland is the ideal place to share a rod with a friend or family members. Our Experience Managers are here to assist you with all aspects of your trip; ground transfers, activities apart from your fishing itinerary, and any other adventures you have in mind throughout your stay at Deplar Farm.</td>

DEPLAR FARM
Located in the remote Fljot valley in the mountainous Troll Peninsula in northern Iceland, Deplar is a converted sheep farm. Today’s modern structure celebrates a rugged past, and honors authentic Icelandic architecture with 13 en suite bedrooms and living spaces made for lounging. Iceland turns day and night on its head—Northern Lights, long days, short nights during most of the fishing season. So a long day of arduous fishing doesn’t mean you can’t return to one of the thermal pools for a beer or cocktail, followed by a massage, then a fresh chef-selection dinner with a Northern flare.

INCLUSIONS:

There are many exciting fly fishing options for your Iceland adventure. To make the best use of your vacation time, and to assure you of the best program to suit your needs, our fly fishing experts will work with you to customize your ideal trip. For example, on travel days between locations, we often suggest fishing half a day in the morning, then moving midday, and fishing at another location in the afternoon. This allows traveling anglers to move on to the next destination or river system and not miss any fishing.

**WHAT IS UNIQUE ABOUT THE FISHING TERRAIN IN ICELAND?**

Mother Nature provides glaciers, spouting geysers, volcanoes, swirling waterfalls, and surreal clear water that makes it possible to fish small skated flies that can produce heart-stopping visual takes.

**WHAT IS DEPLAR’S PROXIMITY TO MAJOR RIVERS?**

The Fljótá River is located right out our front door, and is a great choice if you’re looking for salmon and char. The Húseyjarkvísli, one of those special rivers where one can fish large Atlantic salmon and monster brown trout, is an hour away. Eleven also owns exclusive cabins on the Hólkná in the remote northeast of Iceland.

**WHAT TIME OF DAY CAN I FISH?**

Most fishing times in Iceland are broken into morning (from 8am to 1pm) and afternoon (from 4pm to 10pm) sessions. On the Húsey and the Hólkná, however, we can fish any time in the day as long as it doesn’t exceed 12 hours. This gives Eleven guides and anglers much more flexibility to fish at the best times.

**WHAT TYPE OF GEAR WILL I BE USING?**

Most rods range from 9 foot 5 to 8 weights, with lighter gear for trout and char. For salmon, we generally use a single-handed 9 foot 8 weight or a 12 foot 8 weight 2 hander. While floating lines are the norm, we also like to bring a sinktip.

**WHAT GEAR DOES ELEVEN PROVIDE?**

Eleven provides all gear, from rods, reels, lines, and leaders, to waders, wading shoes, and backpacks. While your guide will have an extensive selection of flies for every location you fish, you are welcome to bring some of your favorite dries, nymphs and streamers.
FLY FISHING
FOR ATLANTIC SALMON

A lot of adventurous anglers have been fly fishing in Alaska and New Zealand, but somehow overlooked Iceland. We can take care of that for you with Deplar Farm as your Northern Iceland headquarters from April through September. With access to some of the most productive salmon rivers in Iceland, Eleven’s professional fishing guides will design an itinerary to suit your goals and to give you the best chance at landing a prized Atlantic salmon – from our home base on the Fljótaá, to the magnificent “Húsey”, to our remote cabins on the Hölná.

A unique attribute to fishing in Iceland is its commitment to conservation. Fishery associations are assigned to all waters, and they strictly regulate the natural fish stock and monitor the fishing pressure. Angling in Iceland is 100% catch and release, wading only, and fly fishing only with a restricted number of rods allowed per day.
THE FLÓTAÁ - JUNE 20 - SEPTEMBER 20

With the upper stretch right out the front door, the main section of the Fljótá River is just 5 miles from the lodge, and features 5 km of riffles, narrow runs and 64 named pools. A great choice to combine salmon up to 20 pounds, and Arctic Char up to 6 pounds. Limited to just 4 rods per day our guides will lead you to the best pools. Excellent light tackle fishing; swing or skate favorite patterns to holding salmon or make a dry fly presentation to sipping char.

THE HÖLKNÁ - JULY 1 - SEPTEMBER 30

This two-rod river offers a unique opportunity for anglers to experience Atlantic salmon fishing, as exclusive as it gets and with no set AM and PM sessions you design your own day. The two rods have access to an 8 mile stretch of gin-clear water, with 27 marked pools and a good number of unmarked pools. Hölkná is truly one of Iceland’s up and coming rivers. Eleven’s Hölkná Cabins are located right on the banks of the river in the northeastern part of Iceland. They are as comfortable as they are remote.

THE HÚSEYJARKVÍSL - APRIL 1 - SEPTEMBER 30

The Húseyjarkvísl is one of the ultimate fishing destinations in Iceland, and one of the few rivers that offers both world class salmon and sea trout fishing. The sea trout season starts in April and offers anglers the rare opportunity to heli-ski and catch trophy trout in the same day. Atlantic salmon are king in July and August. This three rod river spans over 14 miles with 50 named pools, and is just an hour from Deplar Farm. No fixed AM or PM fishing sessions means you and your guide are free to design your day for the best fishing.

ABOUT THE EXPERIENCE

One of the best saltwater fisheries on the planet, and it’s only an hour from Florida. Remote southwest Andros, part of the West Side National Park, is a pristine saltwater wilderness, uninhabited and wild, bursting with bird and sea life. Miles of wadable sand flats, mangrove-lined creeks, and a zig zag of countless islets create a home for schools of bonefish that can color acres of flats a shimmering silver. And their trophy double-digit kin cruise the edges of sand bars and along the deeper shorelines. The plentiful population of resident tarpon layup in the creeks and on the outer Grand Bahama Bank, then roam across the white-bottomed flats with the tides. There are no lodges and no people in this area, only the Eleven Mothership providing you with a remote live-aboard experience; your casually luxurious home on some of the most productive flats in the world, where you can fish with the tides on your own schedule.

This unique fishing opportunity runs from mid-October through June. Seasoned Bahamian guides captaining custom-built skinny water Beavertail skiffs will lead you on daily explorations across this magical seascape. Fish from the skiffs or take off wading. Novice anglers will be spoiled with numerous shots at feeding bones, while accomplished fly fishers can hunt and stalk, enjoy the adrenaline rush of the pursuit, and casting to that flash of a huge silver tail. And world-class reef and offshore fishing—featuring grouper, snapper, tuna, dorado, and wahoo—is an easy run away in the Tongue of the Ocean.

ABOUT THE EXPERIENCE

The Marquesas is a pristine saltwater wilderness teaming with bird and sea life—about 30 miles from Key West across the Boca Grande Channel—a magical world of tropical breezes and crystalline blue-green water that composes an island paradise. This ring of islands surrounds a shallow lagoon that spans an area of about 15 square miles, and is the only true atoll in the western hemisphere. A variety of grass and sand flats, channels, and cuts create the ideal habitat for the Big Three: tarpon, permit, and bonefish, plus a landscape filled with barracuda, sharks, mutton snapper, jacks, snook, and more. And the atoll lay-out means that you can find quality places to fish in almost any weather condition.

Nearby there is wreck, reef, and offshore fishing in the Gulfstream beacons. Cobia, monster sharks, barracuda, grouper, jacks, permit, and mackerel will test your fly rods or light tackle. Offshore you’ll pursue in season, marlin, wahoo, tuna, and dorado.

ABOUT THE EXPERIENCE
Welcome to Rio Palena lodge and a unique Eleven Angling adventure. Starting at home base on the Rio Palena there are four to five full-day river sections to enjoy, each with a variety of challenges and surprises, accessed by Hyde drift boats and Hyde jet boats. Skating and twitching large dries like Fat Alberts and Chernobyl patterns can produce explosive strikes. Long riffles are ideal for pulling over and wading, and while dries can be effective, fishing one of our favorite pancora imitations on a long swing is truly deadly. For streamer aficionados, you will find the Palena to be one of the best rivers anywhere for trophy browns, and with the water so clear it’s often a visual experience that anglers live for.

Included in your fishing adventure are Eleven’s Palena Canyon outpost and a riverfront outpost on the lower Futaleufu, a secluded haven that provides quick access up and down stream to magnificent stretches of the Futa. The exciting dragonfly fishing in Lake Yelcho, and big browns and king salmon in the lower Yelcho River are also well within reach. Add at least one day of helicopter fishing to remote lakes and streams, and you have the most dynamic fly fishing experience available in Chile.

For non-anglers, or if you just need a day off from fishing, we offer horseback riding and hiking in the Andes Mountains, sightseeing picnics, cooking classes with wine tastings, or just kick back at the lodge and schedule a soothing massage.

And then you have the intangibles of the awe-inspiring Andean forests towering overhead, the sounds of the current rushing over centuries old boulders, a giant condor floating on a thermal over a glacier. It’s an atmosphere of tranquility and raw nature to appreciate and savor.

SEASON December - April
SUITABLE FOR Anglers of all abilities, couples, families and corporate groups.

**WHY CHOOSE RIO PALENA?**

It’s always an advantage to have good home water and there are three to four full-day sections right out our back door. For beginners, fishing large dries can produce explosive strikes. Long riffles are ideal for pulling over and wading, and streamer aficionados, you will find the Palena to be one of the best rivers anywhere for big browns.

Jet boats are used in Lago Yelcho to whisk you to reed-laden bays and inlets to cast dragon fly and beetle patterns to cruising trout that sometimes sip and other times crush your offering. We also fish the Rio Yelcho for trout and King salmon, along with remote waters only accessible by helicopter.

**HOW DO WE ACCESS REMOTE AREAS?**

We offer unique helicopter access fishing to rivers and lakes that will change your life. An unforgettable experience in pursuing wild trout and salmon in pristine wilderness areas.

**WHAT GEAR DOES ELEVEN PROVIDE?**

Fishing rods of choice are 5 to 7 weights with floating and sinktip lines. For King salmon, 8 to 10 weighs with a variety of longer faster sinking sinktips.
